

**Genuine Inks**

# Clear Ink Options

EFI™ offers clear ink options for many of our inkjet printing platforms designed for the sign and display graphics market. Our decorative clear inks can be used to enhance an entire image (full flood) or selected areas (spot) to add extra pop to colours or special effects to graphics. The clear ink is printed in-line with the other colours.

EFI UltraClear Coat can be used for decorative applications as well as for a final protective coating. UltraClear Coat prints inline, simultaneously with the image, saving time versus using a separate offline coating system. You can also achieve a gloss or matte finish with the same ink, and it is ideal for truck side curtains, fleet graphics, automotive, transit, marine and other outdoor applications.

EFI Armor UV and water-based post-print coatings are available for additional, extended protection.

Printer Model	Configuration	Ink Set	Decorative	Protective	Finish
EFI Pro 3of	4C + White + Clear	EFI ProGraphics UV XA Clear PN 45218954	✓	✓	Matte or Gloss
EFI VUTEk® 32h	8C + White + Clear	EFI VUTEk GSLX Clear - harder surface cure PN 45156669	✓		Gloss
