Look what you can do with the latest EFI superwide LED roll-to-roll printers

Upgrading to today's EFI™ LED superwide roll-to-roll printers drives maximum performance, reduces costs, increases your range of higher-margin applications, and all with rock solid reliability.

The combination of innovative inkjet technology, LED curing, and advancements in LED ink chemistries make EFI roll-to-roll printers ideal for any Print Service Provider (PSP) looking to expand their print capabilities and applications.

This ebook details how the substrate compatibility and application versatility of EFI roll-to-roll printers lets you offer traditional outdoor signs, retail signage and backlit graphics as well as speciality solutions, such as wallcoverings, window graphics and other interior and architectural applications.

RETAIL

Window graphics

Use window films with adhesive backings to create full-color graphics applied to the inside or outside of windows. With perforated material you can create window graphics that you can see through. With window “cling” films, you can use clear materials to produce double-sided images or opaque materials for a single message.

SUBSTRATES

Vinyl window film with PSA, perforated window film, window cling film

PRINT TECHNIQUES

CMYK + White

PRINTERS

EFI Pro 32r+, VUTEk D3r and D5r, VUTEk 3r+ and 5r+, VUTEk Q3r and Q5r

OPTIONS

White, Y-slitters, X-cutter

RETAIL

Floor graphics

Produce durable short-term or semi-permanent floor graphics for brand and product promotions and directional signage to flooring, tile, carpet and much more.

SUBSTRATES

Vinyl film

PRINT TECHNIQUES

CMYK + White + Clear

VUTEk 3r+ and 5r+, VUTEk Q3r and Q5r

OPTIONS

Clear Coat, Y-slitters,
X-cutter, Roll & Tape

DAY/NIGHT BACKLIT SIGNS

Backlit displays offer a luminous quality and create the appearance of depth, making a graphic dynamic, interactive, and more memorable. Special multi-layering techniques with colour and white ink can be used to create day/night and dynamic dual or enhanced day/night backlit displays.

Enhanced backlit

A multi-layer and white ink printing method to enhance and accentuate the original image for more impact

Max colour backlit

This application is best used for brightly-lit lightboxes that require more colour saturation than a standard day/night print

Dual day/night

By creating a different file for the back layer, the front layer's appearance is enhanced or changed when backlit, and can be used to display a hidden message or colour change when the graphic is backlit

SUBSTRATES

Backlit film, polyester backlit film, backlit banner

PRINT TECHNIQUES

CMYK + White

PRINTERS

EFI Pro 32r+, VUTEk D3r and D5r, VUTEk 3r+ and 5r+, VUTEk Q3r and Q5r

OPTIONS

White, Y-slitters, X-cutter

TRADESHOWS AND EXHIBITIONS

Indoor hanging banners and booth backdrops

Typically printed on a sturdy media that allows the graphics to pop, such as vinyl material, polypropylene or soft banner material.

SUBSTRATES

Vinyl, polyester fabrics for UV

PRINT TECHNIQUES

CMYK

PRINTERS

VUTEk 3r+ and 5r+, VUTEk Q3r and Q5r

OPTIONS

Y-slitters, X-cutter,
Media Spreaders, Media Edge
Guards, Motorised Winders

INTERIOR DÉCOR

Window graphics

Create dynamic window graphics using CMYK, white and clear inks to create stunning, eye-catching designs. White and clear ink can be used to create areas of opacity and translucency, so people can see into but only to a certain extent. This allows for some privacy while still enabling a bright, open appearance for conference rooms, for example.

SUBSTRATES

Vinyl window film with PSA, perforated window film, window cling film

PRINT TECHNIQUES

CMYK + White + Clear

PRINTERS

EFI Pro 32r+, VUTEk D3r and D5r, VUTEk 3r+ and 5r+, VUTEk Q3r and Q5r

OPTIONS

Upgrade to the latest EFI roll-to-roll printers

EFI VUTEk Q3r & Q5r

The EFI VUTEk® Q3r and Q5r roll-to-roll printers go beyond to provide a complete print to finished graphic workflow – from RIP to finished product – on the same platform. Think of it as one big competitive edge that encompasses automatic in-line quality inspection, inline slitting and cutting, Roll & Tape, and more.

EFI VUTEk 3r+ & 5r+

The EFI VUTEk® 3r+ and 5r+ are technically advanced LED roll-to-roll printers with enhanced platform features that offer extreme image quality, extreme throughput speeds and an extreme range of options – giving you the lowest total cost of ownership. And an extremely impressive bottom line.

EFI Pro 32r+

We designed the EFI Pro 32r+ roll-to-roll LED printer to be everything you need to be more competitive and profitable in an economical, all-in-one, production-level printer. Win more jobs, eliminate outsourcing, achieve faster turns and confidently commit to larger capacity runs.

EFI VUTEk D3r & D5r

Everything about the EFI VUTEk D3r and D5r is designed to support your designs. They're the most advanced mid-range roll-to-roll printers on the market – created especially for the industrial printing demands of high-quality, volume producers.

Let's be brilliant. Together.

We understand you want breakthrough technologies to lead you through your digital journey. That's why we're passionate about driving your business growth with a scalable portfolio of products, solutions, services, support, and world-class partnerships for the manufacturing of signage, packaging, textiles, ceramic tiles, building materials, commercial print, and personalised documents with a wide range of printers, inks, digital front ends, and workflow software. Our unwavering commitment is to increase your profits, cut costs, improve productivity, and optimise efficiency — job after job, year after year. We're obsessed with your success. And we definitely believe we have the right people, technology and experience to help your business achieve its goals. Visit www.efi.com or call 0808 101 3484 (UK only) for more information.
